## FOREWORD

The ARTFACTOR International Art and Design Exhibition, organized within the framework of the ARTFACTOR 6th International Art and Design Symposium, brings together artists from diverse disciplines, reflecting the richness and diversity of contemporary artistic practices. Featuring works in painting, photography, graphic design, traditional arts, ceramics, textile design, and digital art, the exhibition provides a platform for exploring different artistic perspectives and creative approaches. Each artwork embodies the artist's unique visual language, cultural background, and individual expression, contributing to a collective dialogue that transcends disciplinary and geographical boundaries.

Through this exhibition, ARTFACTOR continues its commitment to fostering artistic exchange, interdisciplinary interaction, and international collaboration. The online exhibition format further enhances accessibility, enabling diverse artistic expressions to reach a broader audience. This catalogue serves as a lasting record of these creative contributions and reflects the transformative power of art in connecting different cultures, ideas, and perspectives.

I sincerely thank all participating artists and everyone who contributed to the realization of this exhibition.

Best Regards,

**Assoc. Prof. Dr. Burcu Burçak ERDAL**

*Exhibition Curator*
